APAC Distribution Trends

Aug. 29, 2022

Here's look at how 2022 is progressing for electronics distributors working in the Asia-Pacific region, and some insights into what may be coming next.

[Bridget McCrea](#)

Within the APAC region, the largest electronics distributors are concentrated in China, Singapore and Hong Kong. In China, Win Source, iCEasy Electronics, THJ (HK) Technology Limited, and Kehuite Technology Development (HK) Ltd., rank among the largest suppliers of electronics equipment, products and supplies. In Singapore, Supreme Components International Pte Ltd is the largest electronics distributor. In Hong Kong some of the largest suppliers include JT Tech Electronics Ltd., XingHua International, New Strength Electronic Co. and Fairstock HK Limited.

Overcoming Challenges, Grabbing New Opportunities

Like most of the world's electronics distributors, those based in the APAC region have faced many of the same pressures that suppliers worldwide have been dealing with over the last two-and-a-half years. The ongoing pandemic, shutdowns, labor constraints, supply chain disruptions and worldwide chip shortage are just some of the biggest roadblocks that these companies have been working to overcome.

“This is regarding the excellent Business performance of Supreme in 2019.. The Overall support is Very Good & well managed in critical situation’s, looking forward for same in Y2020 Business.”

Schneider Electric, India

“Since we began to work with Supreme, we found a very reliable partner in Far East, a lighthouse in the dark of this crisis. Thanks for all!”

Elemaster S.P.A., Italy

“All transactions by Supreme Components were accomplished with high accuracy, in a very professional way. Your fast and high-quality services help to satisfy our customers here in Germany and Central Europe...”

EDV Germany

“Shall do everything possible for this (Mr. Vick) – a great leader who made ‘Future’ business a reality. My Salute to him and I would love to associate with him in any venture.”

Thomas Varghese, Sr. General Manager , SFO Technologies, India

We love buying from you and your team. The sales and order fulfilment team are extremely responsive to our requests.

Brandon Williams, NeoTech

“The leadership is aggressive in achieving business expansion & achieving sales. Leaders are forward looking, with a succession plan ready for leadership continuity. CEO & senior management leadership team adopts open door policy. Evidently during the interview session with employees, senior leaders engaged the employees actively and participated in the daily sales meetings with staff understanding customers’ concerns & issues. Leadership is quick to respond to changes.”

NTU Business & Community Partners 10th Anniversary

22 February 2021

Dear *Vick*

Happy Lunar New Year

As we enter a new year of growth and possibilities, I would like to express my appreciation to you for playing an important role in the progress of the NTU Business & Community Partners (BCP) Programme. I also warmly welcome our new BCP Programme members into our growing community of philanthropists.

Together over the last 10 years, we have successfully raised close to \$10.38 million to support hundreds of needy students through bursaries and other forms of aid to help those who faced new challenges brought about by COVID-19.

Your generosity has made a transformative impact on the lives of students such as Nurnadiah and Jin Hong, whose families could not afford to send them to university without financial assistance. (Read their stories in the following pages.)

Thank you for your unwavering commitment, dedication and support. I look forward to continuing this meaningful relationship with you as part of the BCP family. May all good things come your way this 2021 and Year of the Ox.

Yours sincerely,

Eugene Lee
